DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

1. The application has been amended as follows:
 - In claim 1, line 4, after "aluminum", replace "power" with - - powder - -.

Allowable Subject Matter

2. Claims 1 – 5 are allowed.

The following is an examiner's statement of reasons for allowance:

- The references of the Prior Art of record fail to teach, or suggest any obvious combination of the limitations comprising **(With respect to claim 1)** wherein the combustion chamber includes aluminum powder; a first end plug located in a first aperture of the confinement tube wherein the first end plug includes means for permitting the entry of water into the confinement tube at a specific water pressure; and a second end plug located in a second aperture of the confinement tube opposite the first aperture, wherein the second end plug includes a detonator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The attached hereto PTO Form 892 lists prior art made of record that the Examiner considered it pertinent to applicant's disclosure.
